About LoPair

since 2011

Founded in 2011, LoPair is dedicated to promoting mutual understanding and intercultural learning using its care program Au Pair China.

Under the motto Learn Through Living Together, LoPair Au Pair China is a program that provides Chinese host families and foreign au pairs with the ultimate cultural exchange experience. On top of language learning, both au pairs and host families will learn from each other's values, customs and traditions through spending 3-12 months under the same roof.

LoPair is at the forefront of the Chinese au pair industry by placing participants from around 20 countries/regions in over 10 major Chinese cities. We provide services such as arrival orientation and training camps, au pair educational courses, local support and numerous customer satisfaction projects.

Your Advantages

Learn about one of the world's most important cultures

China is rapidly growing into its role as a global leader, but there's no doubt that people in China do things differently. By living and engaging with a Chinese family, you will gain a unique insight into the attitudes and mindsets of the Chinese people and forces that make this fascinating country tick.

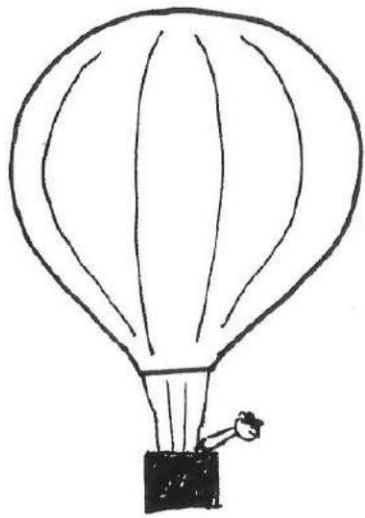

Improve your language skills

There's no better way to learn a language than cultural and linguistic immersion, which is exactly what you can achieve with a Culture Bridge exchange. Use this as a chance to brush up on your Chinese or, if you're only a beginner, get started with this fascinating language in the best way possible.

Build up international connections

Our cultural exchanges nearly always lead to long-lasting and unexpected new friendships, but the opportunities don't need to stop there. With China developing and growing at an unprecedented rate, you'd be surprised where your new friendships might take you in the future...

Broaden your perspectives.

There's more than one side to every story, something that seems to be true in China more than anywhere else. By living and sharing with people from a radically different background to your own, you'll encounter a whole new approach to the world with the potential to change the way you think.

Have fun

All this doesn't have to be hard work! Cultural exchange is not just fulfilling, it's really good fun, too. In meeting new people and doing surprising new things you'll create new memories that will last a lifetime.

Eat amazing food

There's a reason why Chinese food has spread across the earth; it's amazing. From delicious steamed buns to spicy hotpot, Chinese food varies hugely across the country, but always has one feature in common – deliciousness. But be sure to take down some notes - having spent your exchange feasting regularly on lovingly prepared traditional meals served at the family dinner table, you'll need them for when you return home.
